We value privacy because of its value to people. It's about more than legal compliance – it's about building a culture that respects privacy and justifies the trust placed in us.

Openness and Honesty

We communicate clearly about actions we take that may impact privacy, we ensure our actions reflect our words, and we are open to feedback about our actions.

We give people the ability to make simple and meaningful choices about their privacy.

Privacy by Design

Respect for privacy is a key component in the design, development and delivery of our products and services.
